Project Title: This is a Tank game

Project Description: A physics based game about tank-related stuff.

Instructions for using the Application (allowable actions): **TBA**

Tools or Concepts Used:

- Object oriented programming.
- Math.Random
- Turtle
- Array/list
- Read/write
- Exceptions
- Physics based crap
- Timers
- Dictionaries
- Custom Message Boxes

Our Assumptions: We possess the skills to program this. Users are only partial idiots. Equal contribution from all involved.

Our Limitations: 2D environment IDE. GUI limitations of C#

Limitation of Turtle for a tank game.
